PRIIP Manufacturer: Fortem Capital Limited ("Investment Manager"), authorised and regulated by the Financial Conduct Authority and cleared by the Central Bank of Ireland ("Central Bank") to provide discretionary investment management services to Irish collective investment schemes.

WHAT IS THIS PRODUCT?

- ~ **Type:** The Fund is a sub-fund of the Company, an open ended investment company with variable capital and an umbrella fund with segregated liability between sub-funds, established under the laws of Ireland and authorised by the Central Bank of Ireland under the UCITS Regulation.
- ~ **Term:** The Fund does not have a fixed term of existence or maturity period but in certain circumstances, as described in the Prospectus, the Fund may be unilaterally terminated following written notice to investors subject to compliance with the Prospectus and applicable regulation. Subject to the liquidation, dissolution and termination rights of the Board of the Company as set forth in the Prospectus, the Fund cannot be automatically terminated.
- ~ **Objectives:** The investment objective of the Fund is to seek to deliver long-term capital growth of cash plus 2-4%, considering both capital and income returns.
- ~ The Fund may invest in or seek exposure to a range of asset classes, determined by the Investment Manager, to seek to deliver attractive risk adjusted returns. The Investment Manager will construct the portfolio of assets which it considers encompass the most advantageous asset classes, geographic regions, sectors and market capitalisations taking into consideration the macro environment (such as interest rates, performance of GDP, unemployment, monetary and fiscal trends) at the time of selection.
- ~ The Fund may invest in collective investment schemes, debt securities, equity securities, securities with equity characteristics, cash and cash equivalents as well as securities providing indirect exposure to other asset classes such as property, FX and commodities.
- ~ The Fund may also invest indirectly in these asset classes through Financial Derivative Instruments ("FDI") including but not limited to forward currency contracts, options, credit default swaps, swaps and futures.
- ~ The fund aims to distribute available income every three months.
- ~ The Fund is actively managed. The Investment Manager uses its expertise to select investments for the Fund and has discretion to invest without constraint to the reference benchmark.
- ~ The Investment Manager employs a top-down, asset allocation approach to investing the assets of the Fund. The starting point is the overall macroeconomic environment. Macro views will be formed through reading, analysing and assessing economic data from around the world from many different publishing sources. The selection of appropriate asset classes will be made using both the Investment Managers' long-term experience and through employing a rigorous approach to quantitative and qualitative research.
- ~ Through the top down, asset allocation approach, the Fund aims to achieve lower levels of volatility than that experienced in broader equity markets, as measured by the MSCI World Index, over a period of at least 36 months. MSCI World Index captures large and mid-cap representation across 23 developed market countries. Volatility refers to the amount of uncertainty or risk about the size of changes in a security's value. A lower volatility means that a security's value does not fluctuate dramatically but changes in value at a lower rate than that experienced in broader equity markets
- ~ You may buy or sell shares on any Business Day, being a day (other than a Saturday or Sunday) on which banks in Dublin and London are open for normal business.
- ~ The Fund's assets are held through its Depository, The Bank of New York Mellon SA/NV, Dublin Branch.
- ~ Further information about the Fund (including the current Prospectus, Supplement and most recent financial statements) is available at the registered office of the Company and from www.fortemcapital.com or free of charge from Link Fund Administrators (Ireland) Limited, 1st Floor, 2 Grand Canal Square, Grand Canal Harbour, Dublin 2, Ireland.
- ~ Investors may switch shares in the Fund for shares in other sub-funds of the Company, provided that they satisfy the criteria applicable to investments in the other sub-fund(s). Further information on switching is contained in the "Exchange of Shares" section of the Prospectus
- ~ **Intended Retail Investor:** The Fund is suitable for investors seeking long-term growth by investing in an actively managed portfolio. The diversified nature of the investments makes the Fund suitable for investors wishing to achieve a broad spread of exposure to asset classes. The Fund expects to have a low to medium degree of volatility. The Fund is suited to medium to high net-worth retail investors and institutional investors who are seeking long-term capital appreciation.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

- ~ The risk indicator assumes you keep the product for 5 years.
- ~ The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
- ~ We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the Fund to pay you.

- ~ Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
- ~ Other risks not adequately covered by the risk indicator include:
 - ~ Counterparty Risk: If an approved counterparty defaults.
 - ~ Issuer Risk: The insolvency of any institution held by the Fund.

WHAT IF FORTEM CAPITAL LIMITED IS UNABLE TO PAY OUT?

The Fund's assets are legally separated from the Investment Manager's. The Fund's assets are held by the Depositary, The Bank of New York Mellon SA/NV, Dublin Branch. You may face a financial loss in the event of a default, insolvency or compulsory wind-up of the Depositary. However, this risk is mitigated to a certain extent by the fact that the Depositary is required to segregate its own assets from the assets of the Fund. Losses are not covered by any investor compensation or guarantee scheme.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended holding period: 10 years

The Fund has no required minimum holding period but has a recommended holding period ("RHP") of 10 years. This RHP has been defined in accordance to the product characteristics. It is determined on the basis of the Fund's risk and reward profile. Your ideal holding period may be different from this RHP. We recommend that you discuss this with your advisor. If the holding period is shorter than the RHP, this may have a negative impact on the Fund's risk and reward profile. You may request to redeem your shares on any Business Day, being a day (other than a Saturday or Sunday) on which banks in Dublin and London are open for normal business. In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the Fund can be temporarily hindered and/or suspended and may not be possible at all.
