

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Fortem Capital Managed Futures Fund

A sub-fund of Fortem Global Investment Funds plc

Class I Accumulating USD Shares

ISIN: IE000ACFZ1G3

The Fund is managed by IQ EQ Fund Management (Ireland) Limited

Objectives and Investment Policy

- ~ The investment objective of the Fortem Capital Managed Futures Fund (the "Fund"), is to seek to deliver positive absolute returns over a 3 year rolling period, regardless of market conditions.
- ~ The Fund will endeavour to achieve its investment objective by using a managed futures strategy, taking long and short positions across global asset classes, including equity indices, fixed income, currencies and, where permitted, commodities via eligible indices, primarily using financial derivative instruments.

Essential features of the Fund

- ~ The Fund may invest without limit, gaining exposure primarily through financial derivative instruments, taking long and short positions across global asset classes including equity indices, fixed income, currencies and, where permitted, commodities, and may also invest in securities, collective investment schemes, cash and money market instruments.
- ~ The Fund may also invest indirectly in these investments through Financial Derivative Instruments ("FDI") including but not limited to swaps and options.
- ~ The Fund is actively managed. The Investment Manager uses its expertise to select investments for the Fund and has discretion to invest without constraint to any reference benchmark. The portfolio is constructed using a systematic approach, allocating across asset classes and markets based on observed price trends and prevailing market conditions.
- ~ The Investment Manager has the discretion to consider which investments may generate a return for the Fund and the overall

allocation of investment in same. This is done through research using own proprietary databases and external services.

- ~ On demand, you may buy or sell your shares on any Business Day. A business day means a day (other than a Saturday or Sunday) on which banks in Dublin, London and New York are open for normal business, as per the supplement.
- ~ The Fund is suitable for investors who are seeking capital growth over a medium to long-term horizon, but who are willing to tolerate medium risks due to the potentially volatile nature of the investments.
- ~ Income and capital gains arising in respect of the shares will be re-invested and reflected in its Net Asset Value per share.
- ~ The Fund may use total return swaps for investment purposes to gain economic exposure to the underlying investments. Approved counterparties may provide collateral, including cash, US Treasury bills, and high-quality government bonds of up to 7 years' maturity.
- ~ There is no limit on the amount of FDIs which may be used by the Fund, subject to the Fund's total exposure including leverage (calculated as a sum of notional of exposure of FDI being utilised by the Fund) being in the range referenced in the Supplement.
- ~ The Fund will use the absolute VaR approach to measure global exposure.

Risk and Reward Profile

- ~ The lowest category does not mean "risk free".
- ~ The Fund's risk category shown is not guaranteed and may change in the future for various reasons including general market developments, economic cycles and changes such as geo-political factors.
- ~ As the Fund has not yet launched, the risk category has been calculated using simulated and/or representative historical data. This data may not be a reliable indication of the future risk profile of the Fund. It is an indicator of how much a fund's returns may vary and is a measure of a fund's volatility. The higher the volatility, the higher the number on the scale and the greater the risk that investors may experience losses as well as gains.
- ~ The value of investments and the income from them and therefore the value of, and income from the Shares in the Fund, may go down as well as up and an investor may not get back the amount he or she invests.

- ~ Particular risks not adequately covered by the risk indicator include:
 - o **Counterparty Risk:** The Fund may enter into over-the-counter ("OTC") FDIs with approved counterparties. If an approved counterparty defaults, there is a risk that the Fund will lose all or some of the value of that FDI.
 - o **Issuer Risk:** The insolvency of any institution that is the issuer of a Bond held by the Fund may expose the Fund to financial loss.
- ~ The Fund has been classed as 3 and its expected level of volatility is considered to be medium.
- ~ Portfolio Currency Risk: As the Fund invests in overseas securities, movements in exchange rates may cause the value of your investment to increase or decrease.
- ~ The fund may be exposed to other materially relevant risks not adequately captured by the risk indicator. See the "Risk Factors" sections of the Prospectus of the Company and Supplement of the fund.

Charges for this Fund

The charges you pay are used to pay the operating costs of the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge	2.00%
Exit Charge	No Charge

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing Charges	0.45%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance Fee	No Charge
-----------------	-----------

- ~ The **entry and charge** shown is a maximum figure. In some cases you might pay less - you can find this out from your financial adviser.
- ~ The ongoing charges are estimated due to the Fund having less than one year's performance. The ongoing charges are taken from the assets of the Fund and exclude:
 - o Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking
- ~ An anti-dilution levy may be expressed as a percentage of the amount subscribed or redeemed to cover dealing costs and to preserve the underlying assets of the relevant Fund. Any such charge shall be retained for the benefit of the Fund.

For more information about charges, please see the "Fees and Expenses" section in the Fund's Prospectus and the "Fees and Expenses" section in Fund's Supplement available free of charge from the address in 'Practical Information' below

Past Performance

- ~ This Fund has not launched yet.
- ~ The Fund does not have an operating history upon which prospective investors may base an evaluation of the likely performance of the Fund.
- ~ Actual performance results will be indicated after the Fund has undergone one full calendar year of operating history.

Practical Information
